The foregoing is a correct statement of the financial affairs of the town, at the close of the financial year, 1877.

The vote passed at the last annual meeting, instructing the selectmen to finish the basement of the town house, has not been complied with for this reason: The selectmen were of the opinion that the town had no legal right to

appropriate, nor the selectmen to expend, money for said purpose, which opinion was sustained by the following :

To the Selectmen of Derry:

GENTLEMEN,—On an examination of the article in your warrant, and the vote thereon, as copied on the other side of this paper, together with the information communicated to me by Mr. J. R. Clark, I am of the opinion the selectmen would have no legal authority to finish up the basement of the building within named, in pursuance of the vote at your annual meeting.

J. F. BRIGGS.

April 19, 1877.

Respectfully submitted,

JOHN E. WEBSTER, } *Selectmen of*
JOSEPH R. CLARK, } *Derry.*
GEORGE MOORE, }

DERRY, March 1, 1878.

DERRY, March 1, 1878.

I hereby certify that I have carefully examined the accounts as presented by the selectmen. I find them correctly cast and satisfactory vouchers corresponding thereto.

CHARLES C. JOHNSON,
Auditor.

SCHOOL REPORT.

The school committee respectfully submits the following report to the citizens of Derry :

DISTRICT No. 1.

The summer and fall terms were taught by Miss Fannie M. Webster. Correct deportment and prompt recitations showed earnest and well-directed work on the part of both teacher and scholars.

The third term of this school was under the efficient management of Mr. Joseph W. Bean. The discipline was excellent. The recitations showed the result of thorough drill.

DISTRICT No. 2.

Miss Lucinda T. Carlton has taught this school during the year. Miss Carlton has worked faithfully and with good results. Her pupils are much attached to her, which makes it an easy task to govern them. The scholars show much interest in their work and have made commendable progress. The winter term is not finished at this date.

DISTRICT No. 3.

This school has been under the care of Miss Anna F. Choate. This was Miss Choate's first experience as a

teacher. Under her instruction the scholars made fair progress. The order during the first term was not up to the standard, but an improvement was noticeable during the second term.

DISTRICT No. 4.

Miss Fannie A. Moody taught the summer term in this district. She worked hard and showed herself a successful teacher. There were ten scholars neither absent nor tardy during the term.

The winter term was taught by H. O. Hill.

DISTRICT No. 5.

This school was instructed by Miss Carrie V. Whitney. At our first visit there was much disorder. Subsequent visits showed a marked improvement on this subject. The final examination was creditable to teacher and pupils.

DISTRICT No. 6.

The first term was taught by Miss N. Medora Clement. This was Miss Clement's first experience as a teacher, and she showed herself well fitted by disposition and education to fill that important position.

Miss Ella A. White, teacher during the fall term, gave good satisfaction, and under her instruction the scholars made excellent progress.

DISTRICT No. 7.

The prudential committee secured the services of Miss Lois J. Wadsworth as teacher for the first term. Miss Wadsworth knows how to teach, and under her instruction this school made rapid progress. Order was excellent, and

the recitations showed a thorough knowledge of the ground passed over. The punctuality in attendance, on the part of the scholars, is praiseworthy.

Miss Delia L. Preston, teacher for the second term, did her work well. Owing to the length of the term and the severity of the weather, many of the scholars were absent the last part of the term.

DISTRICT No. 8.

The teacher of last year, Miss Mary Coolidge, was re-engaged, and kept the school this year. Miss Coolidge did not pay sufficient attention to order; otherwise her work was satisfactory. Her course with the reading classes is especially commended.

DISTRICT No. 9.

The work of Miss Lucy M. Morse in this school, during the year, has been highly creditable to her as a teacher. The school was always in order, and the recitations prompt, and made in a way that showed an understanding of the ground gone over.

DISTRICT No. 11.

Miss Hattie Ring, teacher. Fair progress has been made in this school during the year. The teacher worked faithfully and with good results. The order was good.

DISTRICT No. 12.

The fact that Miss Mary A. Morse has just completed the third year of her connection with this school, in the capacity of teacher, shows that her work is approved by the district. When visited, the school was orderly and the

recitations good. Several of the scholars are pursuing advanced studies.

In addition to the preceding brief report on the districts in detail, a few remarks on the condition and wants of the schools will now be appropriate.

The teachers of the past year have, in general, done their work well. Many of them were teachers of experience, in this and other towns. Several had taught before in the same districts. Here we expected and found the best results. The new teachers were all earnest in their endeavors to promote the welfare of their respective schools, and met with a fair degree of success. The practice of assisting scholars in recitation, by putting leading questions, is too prevalent. Each member of a class, in reciting, should have a whole idea, and be able, without help, to express it. Good order is one of the essentials of a successful school. This truism has been forgotten in a few of our school-rooms. That is the best teacher who can stimulate her scholars to do the most for themselves. It is work that wins in the school-room, as well as in the active business of life. Therefore, let each scholar be taught to rely upon his own efforts, and the lesson will benefit him ever afterwards.

Parents should see to it that their children are supplied with text-books of the series adopted for use in the schools of the town. This is of the utmost importance. Without uniformity of text-books a school cannot be so classified as to give the best results, and the teacher's time is occupied in hearing many classes on the same subjects.

Illustrative apparatus and books of reference are needed in every school in town. It is recommended that each district see that its school is supplied with a set of wall-maps and a dictionary, at least. A globe and a set of geometri-

cal blocks in each school would be a great help to the teacher in illustrating geography and arithmetic.

The appropriation of the railroad tax to school purposes has given longer schools than usual. The past year there have been $278\frac{2}{5}$ weeks of school. In 1876 there were 248 weeks, and in 1875, 236 weeks. An annual appropriation, in addition to the school tax required by law, and a more equal distribution of the school money, would add much to the efficiency of the schools.

Respectfully submitted,

HENRY O. HILL,

School Committee.

Derry, Feb. 26, 1878.

The whole number of children in town, between 4 and 17 years of age, by the enumeration made in April, 1877, is 335. The number of children, 4 years old and upwards, that have attended the common schools in this town, two weeks at least, during the past year, is 290. The average daily attendance for the year is 234, or a fraction over .80 of the number of scholars registered.
